Corned Beef

Ranch-Inspired
Flavors and Foods

People eat brisket all around the world, from eastern Europe all the way to the western United States. It's cooked differently everywhere, but in the United States, brisket gained fame as Texas barbecue. Surprisingly though many Jewish families in Central and Eastern European ate brisket as far back as the 1700s, especially during food related gatherings like Passover. During the mid to late 1800s, a lot of Germans and Czechs, many of them Jewish, emigrated to the United States, some making their way to the state of Texas. Immigrants and local ranchers started exchanging ideas for how to smoke brisket and because of this, smoked brisket became a staple of Texas BBQ.

Brisket is a cut of beef that comes from the lower pectoral muscles of a cow. This cut consists of two muscles that overlap which are the "flat" which is the thinner part, and the "point" which is the thicker and fattier section of the brisket. Because brisket comes from an area that is well-exercised, it makes for a tougher piece of meat, full of connective tissue. It can also be a rather large cut of meat, with a full brisket between 10 and 14 pounds. Therefore, it's best suited towards a low and slow cooking process.

There are many different ways to serve brisket and they are all amazing when it comes to taste! Smoked brisket is a favorite in the Southern States of the American Southwest.

Corned beef and cabbage is tradition on St. Patrick's Day. Corned beef has a long and illustrious history, dating back hundreds of years in Ireland. Here in the U.S., Irish immigrants began purchasing meat from local kosher butcher shops, including corned beef as we know it today.

We love a good corned beef, but don't love how salty it can be. Traditional corned beef is brined for several days, resulting in a pretty salty piece of meat. We've found these recipes to create a fun St. Patrick's Day meal without the salt! Check out our recipes below, and if you're not a fan of corned beef and cabbage, try our Beer and Beef Stew for a hearty dish to warm your heart!

Beer and Beef Stew

Ingredients

- 2-1/2 tbsp. olive oil
- 2-1/2 lbs. **Sinclair Family Farm** boneless beef chuck
- Salt and black pepper, to season beef
- 4 cloves garlic, minced
- 2 yellow onions, chopped
- 7 slices **Sinclair Family Farm** bacon, chopped
- 3 -1/2 tbsp. all-purpose flour
- 14.9 oz can **Alibi Ale Works** IPA or **Guinness** Draught beer
- 5 tbsp. tomato paste
- 3 cups chicken stock
- 4 carrots, peeled and cut into 1/2-1" slices
- 2 celery stalks, cut into 1" pieces
- 1 parsnip, peeled and cut into 1/2" pieces (optional)
- 2 bay leaves
- 1 tsp. dried thyme (or use 3-4 sprigs of fresh thyme)
- 1/4 cup brewed coffee
- 3 dried prunes, chopped - optional - (this is to mitigate any possible bitterness from the Guinness or coffee)
- 8 baby Yukon gold potatoes, cut in half or quarters

Method

1. Use a sharp knife to slice beef chuck into 1 1/2-2" pieces. Pat beef with a paper towel to dry, then season liberally with salt and black pepper. Heat olive oil in a heavy bottomed pot (I love to use my Dutch oven) over HIGH heat.
2. Add beef, in a single layer, to the pot and brown on all sides. Be careful, as the oil may spatter. Remove browned beef to a plate, then repeat with remaining beef.
3. Lower heat to MED, then add chopped onions and garlic. Season with salt, and cook until softened, about 3-4 minutes.
4. Add bacon pieces and cook until browned. Add flour and stir to combine well. Let floured mixture cook 1 minute to remove any raw flour taste.
5. Pour in **Guinness** or **Alibi Aleworks** IPA and stir well to combine and loosen any browned bits from the bottom of the pot. Add tomato paste, chicken stock, carrots, celery, parsnip, bay leaves, thyme and coffee.
6. Return beef to the pot and stir. If needed, add enough water so that the beef and veggies are nearly fully covered.
7. Bring to a bubble, then reduce heat to LOW or so that it's simmering, cover, and simmer for 2 hours.
8. Remove lid, add potatoes and chopped prunes, stir, then simmer Uncovered another 30-40 minutes, until sauce has thickened to a loose gravy consistency, beef is incredibly tender and potatoes are fork tender.
9. If needed, skim residual fat off the surface. Taste, and adjust salt and pepper as needed. Remove bay leaves and serve.

Beer and Chocolate Pairings

dinner,
try these
interesting
pairings!

IPA pairs really well with an assortment of foods. It has just the right amount of hops and malted barley to create a bitter sweetness. This really sharp beer also cuts any fatty flavor and brings your taste buds back which is perfect for getting the full flavor of a brisket.

Alibi IPA, a hoppy nectar boasting resinous pine flavors, complex tropical aromas and a light creamy malt backbone that allows the hops to shine, with **Chocolate Shoppe** Sea Salted Roka in Dark Chocolate – ROKA is the center part of toffee – rich and buttery! Thick but not sticky and double dipped in dark chocolate and sprinkled with sea salt.

Coffee and Chocolate Pairings

Like beer, coffee offers a wide variety of flavor options, from light to dark bold blends. When it comes to pairing it with brisket though, a dark roast is your best bet because the salty flavors from meat pair well with roasts that are strong in flavor.

Alpen Sierra Certified Organic Dolomiti Blend Dark Roast, A premium sustainable coffee blend that is excellent for espresso preparation. The delicate, nutty-sweet aroma is followed by a smooth cup of almond, citrus and dark chocolate notes, medium body with a tempered

acidity, finishing smooth and round with **Chocolate Shoppe** truffles filled with dark chocolate ganache made with semi-sweet and bittersweet chocolates that are melded together with hot whipping cream, either with liquors or without.
